## Michigan Care Improvement Registry (MCIR) Winter 2010

### MCIR Updates

- The Michigan Department of Community Health (MDCH) has advised that lost, wasted or expired H1N1 doses should be reported in the **MCIR All Hazard Vaccine Inventory Module (VIM)**. H1N1 vaccine is not to be returned to the distributor McKesson. MDCH is not requesting reimbursement for H1N1 vaccine losses. Contact your local health department for questions about H1N1 vaccine losses.

Steps on how to report H1N1 vaccine losses in MCIR are provided in this newsletter under the section **Reporting Lost, Wasted and Expired H1N1 Doses**. A MCIR tip sheet is also available online on the MCIR website at [http://www.mcir.org/forms/How\\_to\\_Add\\_Transactions\\_to\\_Lots\\_in\\_All\\_Hazard\\_InVENTORY.pdf](http://www.mcir.org/forms/How_to_Add_Transactions_to_Lots_in_All_Hazard_InVENTORY.pdf).

- Vaccine lot numbers can now be defaulted to be automatically selected when entering a vaccine dose into a MCIR record. To default a lot number click the **Make Lot Default** button on the **Lot Transactions** screen. This can save time when entering vaccine doses.

The default can later be removed when the lot is no longer used as default. Click the **Remove Default** button on the **Lot Transactions** screen.

## Contest !

Answer the following questions for a chance to win!

Participants with all the correct answers will be placed in a drawing for the choice of a MCIR mug, candy jar or shoulder bag. Email or FAX the answers to regional staff by **February 20, 2010**

- VIM lots can be \_\_\_\_\_ to be automatically selected when entering a vaccine dose into a MCIR record.
- \_\_\_\_\_, \_\_\_\_\_ or \_\_\_\_\_ H1N1 doses should be reported in the MCIR All Hazard Vaccine Inventory Module (VIM).
- Expired lots that have a balance of \_\_\_\_\_ can be inactivated off the current Manage Inventory screen in your VIM.

Congratulations to our last contest prize winner Susan Spencer from Dr. Michaele Antoine in Bad Axe.

Wondering if you got the correct answers last time? The answers for the Fall 2009 contest were:

- The new vaccine **Hiberix** has been added to the vaccine dropdown list on the MCIR Add Immunization screens.
- The Region 4 MCIR newsletter will now only be distributed by **email** or available **online**.
- The MCIR All Hazard vaccine inventory module will be utilized to track **H1N1** vaccine doses administered and antivirals dispensed.

# Reporting Lost, Wasted and Expired H1N1 Doses

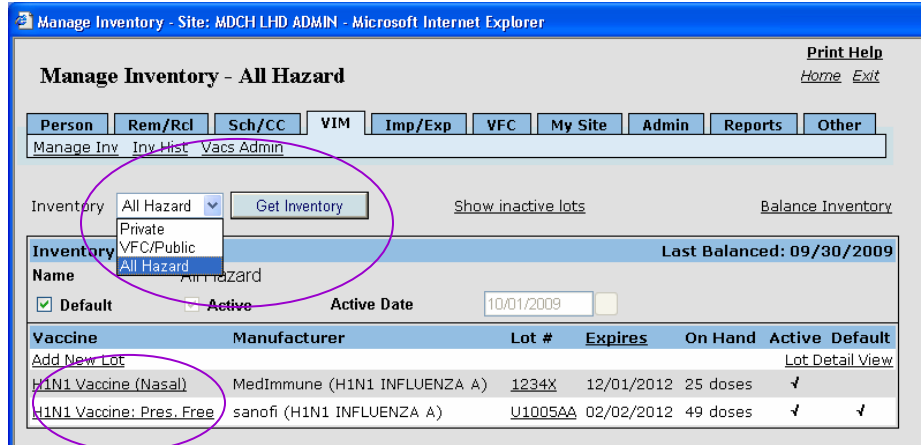

In addition to reporting in MCIR all H1N1 vaccine doses administered, providers should report lost, wasted or expired H1N1 doses in the MCIR All Hazard Vaccine Inventory Module (VIM).

To report lost, wasted or expired H1N1 vaccine in MCIR:

1. Click the **Manage Inventory** link under **Vaccine Management** on the MCIR home screen.

2. Choose **All Hazard** from the Inventory dropdown list on the **Manage Inventory-All Hazard** screen. Click the **Get Inventory** button.

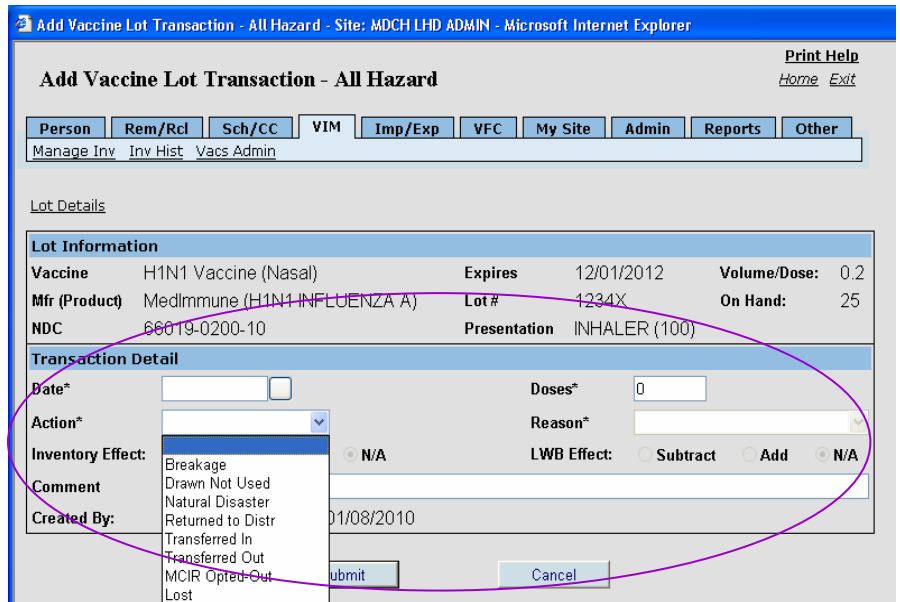

3. Select the correct **Vaccine** name on the **Manage Inventory-All Hazard** screen. The **Lot Transactions** screen will open.

4. Click the **Add New Transaction** link on the **Lot Transactions** screen to open the **Add Vaccine Lot Transaction -All Hazard** screen.

5. Enter the following information on the **Add Vaccine Lot Transaction-All Hazard** screen:

- **Date:** enter the date of the transaction.
- **Doses:** enter the number of doses affected.
- **Action:**
  - For **lost/wasted vaccine**, choose one of the following actions from the **Action** dropdown list:
    1. Breakage
    2. Drawn Not Used
    3. Natural Disaster
    4. Lost
  - For **expired vaccine** choose the action **Transferred Out**.

Select **Subtract from Inventory** from the **Reason** drop down list.

6. Type in the **Comment** field details about the vaccine loss/wastage or that the vaccine is expired.
7. Click the **Submit** button to complete the transaction.

## Vaccine Inventory Module (VIM) Tip

- Expired lots that have a balance of zero can be inactivated off the current Manage Inventory screen in your VIM. Once the inventory is balanced, go to the transaction screen for the lot and click on the **Inactivate Lot** button.
